

Amendment Dated 11/10/05
Response to Office Action Dated 08/10/05

Application No. 09/868,713
Attorney Docket No. 00522.00175

This listing of claims will replace all prior versions, and listings, of claims in the application :

Listing of Claims:

1. (Currently Amended) A computer-implemented method for creating a presentation, comprising the steps of:
 - (a) presenting information indicative of a goal;
 - (b) integrating information that motivates accomplishment of the goal;
 - (c) receiving input from a student;
 - (d) analyzing system tools that process the input from the student, the input corresponding to collective actions provided by the student; and
 - (e) simulating a business outcome from the collective actions of the student; and
 - (e) (f) providing feedback to assist the student in utilizing the presentation to accomplish the goal.
2. (Currently Amended) The A computer-implemented method for creating a presentation as recited in claim 1, wherein the feedback includes video information.
3. (Currently Amended) The A computer-implemented method for creating a presentation as recited in claim 1, wherein the feedback includes audio information.
4. (Currently Amended) The A computer-implemented method for creating a presentation as recited in claim 1, wherein the feedback includes electronic mail information.
5. (Currently Amended) The A computer-implemented method for creating a presentation as recited in claim 1, wherein the feedback includes simulated information.
6. (Currently Amended) The A computer-implemented method for creating a presentation as recited in claim 1, wherein the feedback includes information obtained from a network.
7. (Currently Amended) The A computer-implemented method for creating a presentation as recited in claim 1, wherein the feedback includes telephony information.

Amendment Dated 11/10/05
Response to Office Action Dated 08/10/05

Application No. 09/868,713
Attorney Docket No. 005221,00175

8. (Currently Amended) The A computer-implemented method for creating a presentation as recited in claim 1, wherein the feedback includes video conferencing information.
9. (Currently Amended) The A computer-implemented method for creating a presentation as recited in claim 1, wherein the feedback includes chat room information.
10. (Currently Amended) An apparatus that creates a presentation, comprising;
(a) a processor;
(b) a memory that stores information under the control of the processor;
(c) logic that presents information indicative of a goal;
(d) logic that integrates information that motivates accomplishment of the goal; and
(e) logic that receives input from a student;
(f) logic that analyzes system tools that process the input from the student, the input corresponding to collective actions provided by the student; and
(g) logic that simulates a business outcome from the collective actions of the student; and
(h) (g) logic that provides feedback to assist the student in utilizing the presentation to accomplish the goal.
11. (Original) An apparatus that creates a presentation as recited in claim 10, wherein the feedback includes video information.
12. (Original) An apparatus that creates a presentation as recited in claim 10, wherein the feedback includes audio information.
13. (Original) An apparatus that creates a presentation as recited in claim 10, wherein the feedback includes electronic mail information.
14. (Original) An apparatus that creates a presentation as recited in claim 10, wherein the feedback includes simulated information.

Amendment Dated 11/10/05
Response to Office Action Dated 08/10/05

Application No. 09/868,713
Attorney Docket No. 005221.00175

15. (Original) An apparatus that creates a presentation as recited in claim 10, wherein the feedback includes information obtained from a network.
16. (Original) An apparatus that creates a presentation as recited in claim 10, wherein the feedback includes telephony information.
17. (Original) An apparatus that creates a presentation as recited in claim 10, wherein the feedback includes video conferencing information.
18. (Original) An apparatus that creates a presentation as recited in claim 10, including logic that creates a multimedia presentation as recited in claim 11, wherein the feedback includes chat room information.
19. (New) The computerized method of claim 1, further comprising the step of:
(d)(i) analyzing the input over a period of time to determine the collective actions.
20. (New) The apparatus of claim 10, wherein (f) includes logic that analyzes the input over a period of time to determine the collective actions.
